interface  [Pronunciation Key](#) (ɪn'ter-fās)

n.

1. A surface forming a common boundary between adjacent regions, bodies, substances, or phases.
2. A point at which independent systems or sources of energy or influence interact: the line between crime and politics where much of our reality is to be found" (Jack Kroll).
3. Computer Science.
 - a. The point of interaction or communication between a computer and any other entity, such as a printer or human operator.
 - b. The layout of an application's graphic or textual controls in conjunction with the way the application responds to user activity: *an interface*

Interface

4 entries found for language

v. interfaced, interfacing; intransitive (lǎng-gə'ɪj)  [Pronunciation Key](#)

1. To join by means of an interface.
2. To serve as an interface for.

Description

1.
 - a. Communication of thoughts and feelings through a system of arbitrary signals, such as voice sounds, gestures, or written symbols.
 - b. Such a system including its rules for combining its components, such as words.
 - c. Such a system as used by a nation, people, or other distinct community, often contrasted with *dialect*.
2.
 - a. A system of signs, symbols, gestures, or rules used in communicating: *the language of algebra*.
 - b. Computer Science. A system of symbols and rules used for communication with or between computers.
3. Body language; kinesics.
4. The special vocabulary and usages of a scientific, professional, or other group: "his total mastery of screen language" (camera placement and "padding") (Jack Kroll).
5. A characteristic of speech or writing: *eloquent language*.
6. A particular manner or style of expression: *eloquent language*; *persuasive language*.
7. The manner or means of communication between living creatures other than humans: *the language of dolphins*.
8. Verbal communication as a subject of study.
9. The recording of a legal document or statute: *distinct from the spirit*.

4 entries found for description

de-scrip-tion  [Pronunciation Key](#) (dɪ'skrɪp'shən)

1. The act, process, or technique of describing.
2. A statement or an account describing something: *published a description of the journey*; *gave a vivid description of the game*.
3. A pictorial representation: *Monet's ethereal descriptions of haystacks and water lilies*.
4. A kind or sort: *cars of every size and description*.

NO FUTURE

Maximum Penalty £5

Dear W3C, I would
like:

MUST IGNORE to be anointed

**Namespaces for ownership of a set of names not
version control, as originally intended**

**Means of communicating a break in compatibility
e.g. MUST UNDERSTAND**

**Descriptions to enable
evolution *naturally***

Thanks!
