

Speech-enabling your web pages

Dan Burnett, Voxeo

W3C TPAC, November 2010

HTML Speech Incubator Group

- Chartered August 2010 (for one year)
- Participants include Google, Microsoft, Mozilla, AT&T, Nuance, Loquendo, Openstream, and Voxeo
- Others are welcome

So far . . .

- Collected rough set of use cases, requirements, and proposals
- Now reviewing and consolidating requirements
 - Security and privacy
 - Control over selection of speech resources
- Others are welcome

Next steps

- Prioritize requirements
- Develop API/group proposal
 - Other(participant)s are welcome
- Recommend work to HTML (5?/6?) group
