

USING OPEN DATA

POLICY MODELING, CITIZEN EMPOWERMENT, DATA JOURNALISM

*Uniting Europe's leading local
government organizations with
Living Lab experts, ICT
specialists and expert SMEs.*

Enabling Smart City Services through Open Data, Mobile Applications and Common Data Formats

Innovation in an Era of Austerity

The Challenge for Cities

An Era of e-Innovation?

Open Data Holds a Powerful Key

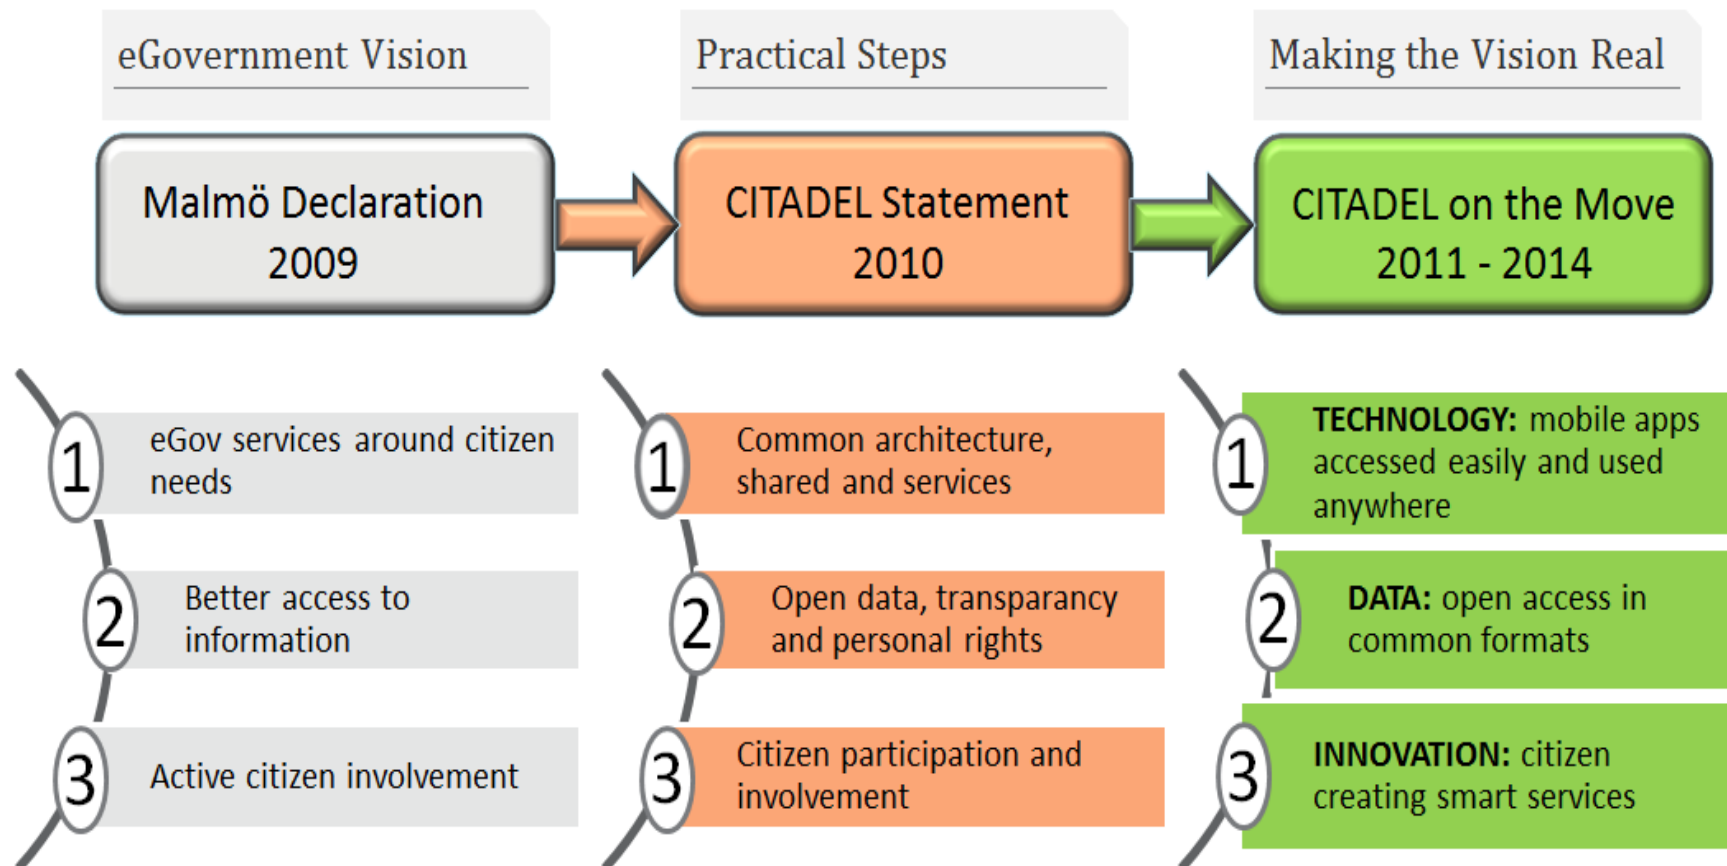

But the Battle of the 'SILOS' prevails....

SILOS DON'T COME DOWN, THEY JUST AGE.

Making Malmo Real....

The 'Citadel on the Move' Answer

- Goal 1: Deliver additional value from Government data (*Data gap*)
- Goal 2: Tap into the innovative potential of citizens (*Innovation gap*)
- Goal 3: Generate new 'shared' services for smart cities (*Technology gap*)
